## REGISTER PLATE PRICE AND ORDER FORM

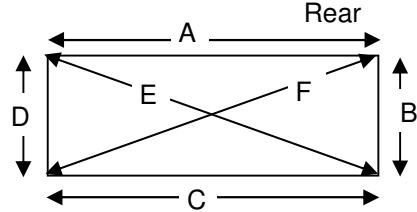

Steel register plates are made of 2mm thick sheet. Standard plates have all 4 sides folded to enable easy fixing and for sealing with mortar to the chimney wall.

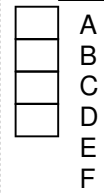

Take the longer length (A or C) and multiply by longer Depth (B or D) = area of plate \_\_\_\_\_

Divide by **10000** = number of units \_\_\_\_\_

Left side when facing fire

Please indicate any side **NOT** requiring a fold.

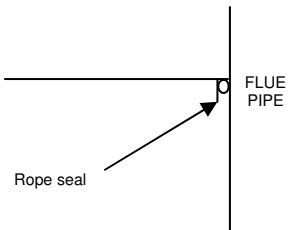

mm

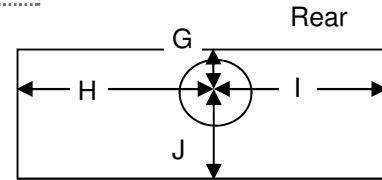

### FLUE HOLE

This has a 20mm upstand to allow for packing with glass fibre rope. This allows for expansion and contraction.

Nominal diameter of flue pipe \_\_\_\_\_  
**STOVE** \_\_\_\_\_

Standard hole suits flue pipe sizes supplied by R W Knight and Son

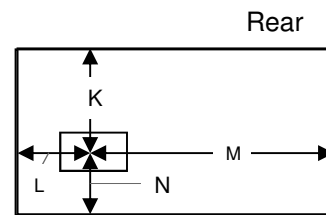

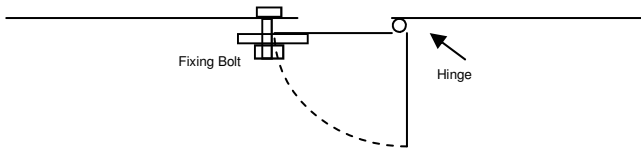

mm

### SOOT DOOR

This is 200mm square unless otherwise requested, It is hinged on one side (please specify) with a fixing bolt on the other side giving easy access for cleaning. Two doors are recommended on some plates to allow easier access to both sides of flue pipe.

mm hinge

### ORDERING AND PAYMENT

Measure dimensions A—N accurately and complete the form in full.

Plates will be ready in 14 days.

£20 non refundable deposit payable when ordering.

**We will telephone when plate is ready.**
