Jøtul F130 Series

Jøtul F 130-series is a modern and stylish designed woodstove. For houses with a low energy demand, this stove is an ideal option. It is compact and designed to function optimally on low burn. This will in turn give you a positive heating experience both when it comes to warmth and a great view of the flames. The Jøtul F 130-series is clean burning with a modern combustion system making it more efficient and reducing wood consumption
