

THE ALL NEW ISLAND II

The All New Island II is one of our latest additions to the Island range. This redesign of our classic twin door stove has a larger picture window and incorporates our Blu burning technology. This stove burns with an efficiency of over 82% with extremely low smoke particle level of 14mg/m³ (the Ecodesign limit is 40mg/m³). The All New ISLAND II not only meets Defra exemption limits (allowing wood to be burnt cleanly in smoke control areas) but is a vast improvement on the new 2022 Ecodesign standards – a stove for the future.
